TITLE AND ABSTRACT

Title: Deletion of Registration and Identification of the Motorized Vehicle in the Perspective of Human Rights

Abstract: This research aims to review and analyze the provisions on the deletion of registration and identification of motorized vehicles data for the purpose of motorized vehicle registration, at least 2 times, after the validity period of the motor vehicle number is expired in the perspective of human rights. The results of the study found that motorized vehicle ownership is a Human Rights which is included in the category of derogable rights. The deletion of motorized vehicle data is a limitation of Human Rights only as regulated in Act Number 22/2009 about Traffic and Road Management. Therefore, it is necessary to implement the provisions of Article 24 paragraph (3) of the Constitution of the Republic of Indonesia. Reviewing the provisions of Article 24 paragraph (3) of Art No. 22/2009 and implementation of the national program of changed motorized vehicle ownership, needs to be prioritized, so that the objectives of the motorized vehicle registration provisions can be achieved and will ultimately increase revenue from motorized vehicle tax.
